

**BULL ROCK AVAILABLE
TO MONTGOMERY TRACE PROPERTY OWNERS**

In preparation for cleaning up the Section 5 Commons on Leah, the Board has agreed that Montgomery Trace Property owners may take the Bull Rock piled near the entrance to the commons for personal landscaping needs on a first come first serve basis.

It would not be wise to have these rocks spread when the dozer comes to clean up this commons as they cause a problem for horses that might use this area once the trails are in place.

This pile of Bull Rock was removed from the entry island when the county shortened the east end of the entry to improve access to the commons from Leah. It is now in the way and impeding work on the commons. Please do not try to remove any of the moss rock (Boulders) as we will use that for further Association needs.

The MTPOA Board
