

Mr. Popham,

I am sure you are well aware of the construction on Fish Creek Thoroughfare. Over the next few days we will be paving the road from the entrance at Woodforest Golf Club North to where the pavement ends near Montgomery Trace and Ridgelake Shores.

It may be beneficial for the residents of your subdivision who use Mulligan Drive in their morning and afternoon commute to consider Leah Drive for the remainder of this week and possibly the early part of next week to avoid excessive delays.

If I could also ask a favor of you to please spread the word that the bridge over Lake Creek is not open to "Thru Traffic".

We appreciate your help and look forward to giving the county another quality job.

If any questions please don't hesitate to give us a call.
