HOUSTON, TX 772681007

October 3, 2008

Dear Mid-South Synergy Member:

Beginning October 6, 2008 through December 5, 2008, crews from Mid South Synergy Utility Services will be in your area clearing, trimming and cutting trees that are within our right of way easement. We will begin at the substation and continue trimming and clearing trees until they have completed the entire section of line.

Mid-South's right of way easement allows us to trim or cut trees 10 feet on each side of our line. We would ask that you please consider and understand that right-of-way clearing helps to prevent power outages and helps us to provide you with the most reliable electric service. We do not anticipate any electrical outages during this scheduled preventative maintenance.

If you should have any additional questions please contact:

- **Bo Williams, Manager of District Operations and Maintenance
(936-825-5101)**
- **Michael Long, Right of Way Supervisor, MSS Utility Services
(936-870-5811)**

Sincerely,

Mid-South Synergy
